

Milligan professor elected secretary of Alpha Chi National Council

Dr. Lori Mills, professor of psychology at Milligan College, was elected secretary of the Alpha Chi National Council at Alpha Chi's national convention.

Alpha Chi is a national collegiate honor society that inducts only the top 10 percent of students from all disciplines in the junior and senior classes and graduate programs. It is governed by the Alpha Chi National Council, a 22-member body comprised of 15 faculty members and seven students. Mills, the sponsor of Alpha Chi's Tennessee Nu chapter at Milligan, was also re-elected as an at-large faculty member for a second four-year term. She will serve as secretary and an at-large member from 2011 to 2015.

A 1988 graduate of Milligan, Mills completed her master's and doctoral degrees in clinical psychology at the University of Louisville. She returned to Mil-

Lori Mills

ligan to teach in 1993. Mills is a licensed clinical psychologist with health service provider status in the state of Tennessee. Her clinical work has focused on assessment and psychotherapy with adults. She is also a member of

the American Psychological Association and the Intermountain Psychological Association.

The Tennessee Nu chapter was installed in 1994. Since the chapter's inception, it has received Star Chapter status every year but one. To earn this designation, a chapter must induct new members, sponsor at least one scholarly program on campus during the academic year, submit entries in a national scholarship competition, have at least one sponsor and at least one student attend the national convention, and have at least one student make a presentation at the convention.

Boone Lake Cleanup a success

Boone Lake and several connecting streams are much cleaner today thanks to the efforts of nearly 500 volunteers who collected close to 40 tons of trash and wood debris during the 12th annual Boone Lake Cleanup on April 30. After the cleanup, volunteers were treated to a picnic, where more than \$5,000 in cash and prizes was distributed.

"Approximately 169 tires were also collected during the cleanup efforts," said event chairman Dennis Willingham. "It is extremely rewarding to see so many groups from municipalities, private companies, individuals and civic groups come together in this common goal."

For information on how you can make a difference in protecting Boone Lake, contact the Johnson City Parks and Recreation Department at 283-5827.
