# Hope . . .

. . . opens outward

and  
gives  
itself

to others.

It finds beauty in  
such simple things

and engulfs  
this beauty

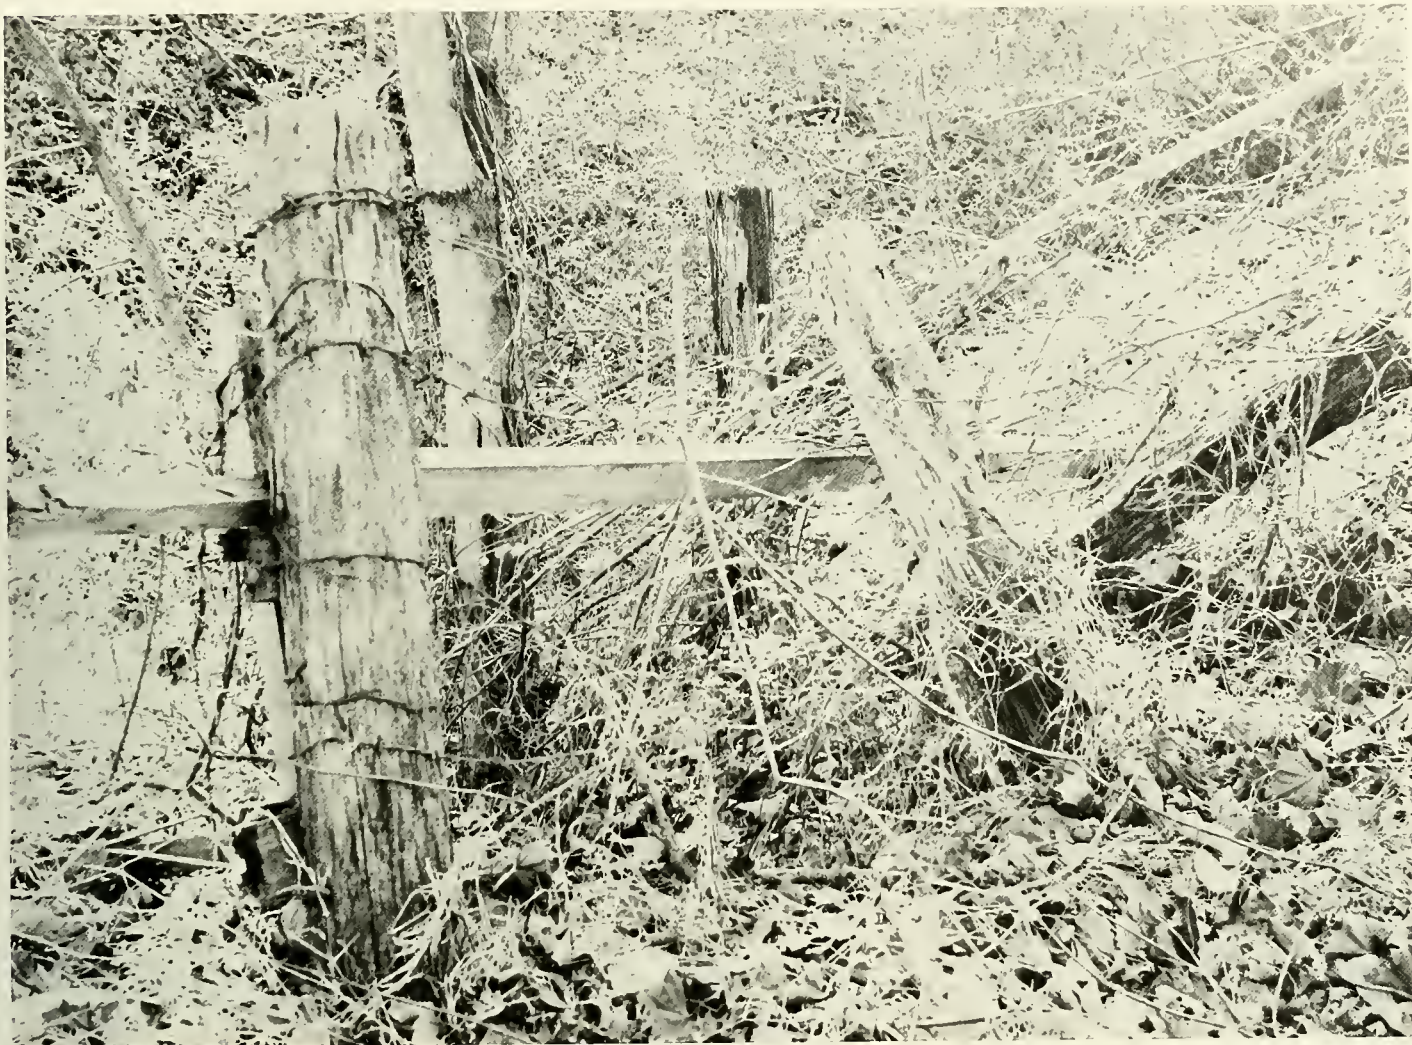

in itself.

To those who seek  
mere worldly gain

it may seem  
a worthless plight

But the Hope

which turns the leaves ...

then seemingly

walks away

gives  
to all

who search for it

Hope . . .

of a better day

MILLIGAN

Somebody call Jim McKay! A new sport captured the imagination of the campus as daring riders equipped with helmets and pads attempted the treacherous run down Sutton hill on the little red wagon races.

Monday, April 28th classes were dismissed as the Student Union sponsored Marvelous Monday. The Students enjoyed a picnic lunch on Anglen followed with competitive games of softball and volleyball.

The end of the day brings tired students to enjoy the evening meal at the close of Marvelous Monday.

Bonnie Bunton was honored as junior sweetheart for 1975

Sweetheart candidates wait in anticipation for the announcement of the lucky four girls.

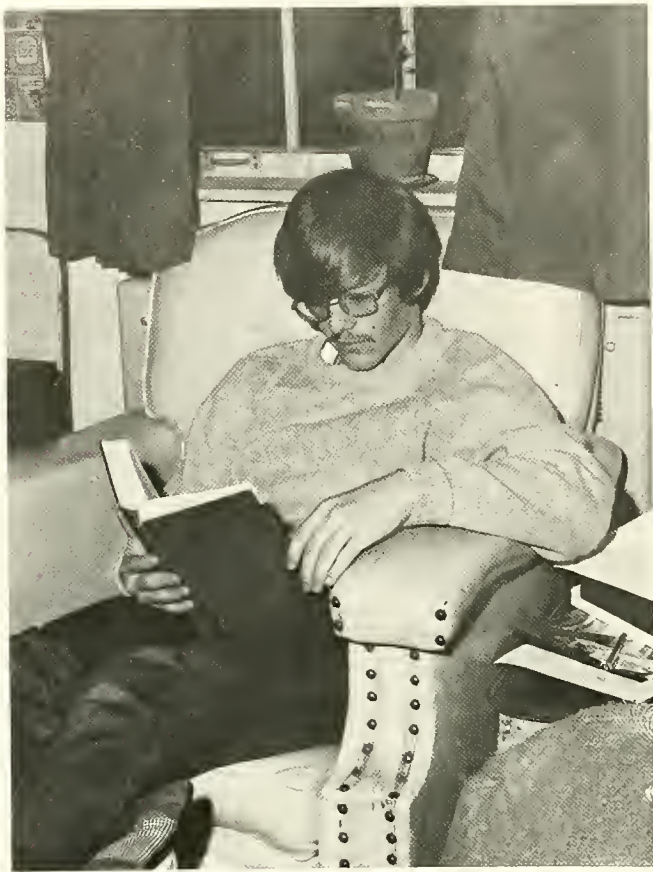

The faculty of Milligan presented their talent for the students preceding the presentation of the 1974 *Buffalo*. This was a memorable evening featuring M.C. Mr. Price along with the "stars" Dr. Gwaltney and Dr. Wetzel in *Tiresius* and *Oedipus*.

Times to Remember .....

Dave's studying has finally borne fruit.

Workers prepare to blow-up fieldhouse roof.

It takes a little more imagination without a net.

Have you considered this thoroughly?

Some people will go to any length to get away from it all.

He put electricity to work for you

Thomas Edison, father of the electrical industry, didn't discover electricity; but he did develop its use for people like you. He patented almost 1,100 inventions that use electric power.

Today, electricity is still working to improve the quality of your life. Electricity runs equipment that purifies the water, cleans the air, recycles trash into usable material, and mashes trash. Edison put electricity to work for people. And we will keep it working. For you.
